

## Spelling list: gui and gue words

In these words a silent u forms a wall between g and i or e . This means that g can still say its hard sound.

|            |                                                                         |
